LISA DURDEN, PROFESSIONAL LICENSING BOARDS DIVISION DIRECTOR

Durden provided information regarding the MyLO upgrade. She explained that SOS IT had planned to have the upgrade ready to deploy during Thanksgiving week. After multiple testing sessions and meetings with IT personnel, SOS has decided to delay the upgrade at this time to ensure that all problems have been reconciled. Rowe inquired about the new date for the upgrade and stated that, due to the nursing license renewals in January 2016, it would be important for SOS to wait until the renewal period had ended before undertaking the upgrade. Durden replied that a new date had not yet been set and that SOS IT staff were communicating with the software vendor. Hooper inquired about the winter graduation period and how the system upgrade would impact new graduates. Durden reassured the Board that a new software upgrade date had not yet been set.

Durden provided information to the Board regarding the licensure renewal period. She explained that 30% of the registered nurses had completed the license renewal process.

Durden noted that the Board voted at its September 2015 meeting to move the licensure verification process from the Secretary of State's Office to Nursys.com. She explained that SOS had been exploring options that would allow the Board to continue utilizing SOS for licensure verifications. She provided information regarding SOS IT's work to establish a relationship with a vendor to upgrade the security of electronic verifications of licensure. She noted that SOS was also exploring a paper verification process that would utilize tamper proof paper for printing verifications of licensure. Durden noted that the licensure verification process generated retained revenue for the agency that was utilized to pay for part time employees for nursing and Intake.

Rowe provided a brief explanation to visitors regarding the Board's decision to begin utilizing Nursys.com for licensure verifications to prevent any fraudulent verifications of licensure. She noted that Nursys.com eliminated any possibility of fraudulent activity related to verifications of licensure from Georgia.

Fort inquired about the amount of revenue generated by verifications of licensure for nurses. Durden explained that the agency collected approximately \$400,000 in licensure verification fees and stated that approximately 70% percent of revenue was generated by nurses.

Rowe stated that the Board's role was to protect the public and noted that, if the Board decided to proceed with Nursys.com for licensure verifications, that the Board would need to approach the General Assembly to explain that additional funding would be necessary to make up for the lost revenue. Rowe explained that she had recently been required to answer many difficult questions regarding imposter nurses and fraudulent activity and that the Board must make every effort to ensure public protection.

Rowe invited stakeholders to comment on the discussion. Durden provided a brief overview regarding the current licensure verification process utilized by SOS. Rowe and stakeholders expressed immense support for an electronic process. Rowe acknowledged that Durden had stated that SOS was researching the use of vendors to provide an electronic verification process and inquired about the cost of the contract. Durden explained that the contract cost would be minimal.

Durden explained that SOS was taking steps to correct the problem and noted that the existing process appeared to be working. She explained that when a fraudulent, paper verification of licensure had been submitted to another board of nursing, that board contacted Georgia to investigate its authenticity.

Lockwood inquired about the current processing time for verifications of licensure. Durden responded that verification requests were typically processed within five business days. Durden explained that most nursing verifications were sent by email to another board of nursing.

Shilling asked if the proposed SOS vendor would provide the verification electronically. Durden explained that the vendor would enable SOS to provide the verification via secure email.

Rowe noted that she frequently received inquiries from nursing students regarding whether or not the Board participated in Nursys.com for licensure verifications. She explained that students expressed how easy it was to use Nursys.com and noted their disappointment when they learned that Georgia did not utilize Nursys.com for licensure verifications.

Barton inquired when SOS would be ready to deploy its new system. Durden did not have a definite date but noted that it would be before the January 2016 board meeting.

Rowe stated that the Board would consider Durden's proposal and provide a response regarding the Board's decision.

Rowe asked Cleghorn to provide an overview of the Imposter Alert webpage. Cleghorn provided information regarding the new webpage and noted that the information would also be included in *The Georgian Nurse*. Rowe noted that imposters were extremely troubling to the Board and the nursing profession. Rowe explained to visitors that all employers should utilize the Board's website or Nursys.com to verify licensure information and should ensure that all data fields match the information presented by the potential employee.

Barton questioned Durden about the Call Center status. Rowe inquired as to whether a customer satisfaction survey had been implemented. Durden explained that SOS IT had been working to implement the MyLO upgrade and that no resources had been available to develop the customer satisfaction survey.

Barton thanked Durden for her teamwork approach to working with the Board.

Cleghorn provided information to the Board regarding the absence of any written comments regarding the proposed repeal of rules Chapter 410-15.

She explained that, on some of the versions, the Board of Nursing had been omitted from the agenda. She stated that on final versions of the platform, the Board of Nursing was definitely included and that GNA plans to continue supporting the Board in the future.

Malachowski provided information about the upcoming retirement of GNA CEO Debbie Bartlett. She explained that the association had formed a search committee and planned to survey GNA members regarding key characteristics needed for the next CEO.

BOARD MEMBER MILEAGE REIMBURSEMENT AND PER DIEM

Train noted that, based on the information provided by Durden, SOS would lose approximately \$280,000 if the Board voted to move the licensure verification process to Nursys.com. Rowe noted that there were currently three part time positions in the Board office that would be lost as well as five part time positions in Intake that would be lost. Barton questioned which process was evidence based and noted that Nursys fit the evidence based requirement. Board members discussed that participation in the Nurse Licensure Compact would also require the Board to use Nursys.com for licensure verifications.

Fort moved to uphold the previous motion to utilize Nursys for verification. Train seconded the motion and it carried unanimously. The Board's rationale for the motion is included below:

- 1) The decision is based on the Board's desire to fulfill its statutory mission to protect the public health, safety and welfare.
- 2) The decision is evidenced based.
 - a. Nursys is a proven system that eliminates any potential for fraudulent verifications of licensure to be produced
 - b. Nursys provides more efficient customer service for licensees. Licensees can request verifications online twenty-four hours a day, seven days a week and the verification is immediately available to the other board of nursing.
- 3) The decision is based on best practice and is used by fifty out of fifty-nine boards of nursing in the United States and its territories.
- 4) The decision is based on the heightened sensitivity to security issues.

The Board directed Cleghorn to provide Rowe with updates regarding any staffing changes made to Board staff. The Board directed Cleghorn to provide information regarding how much additional revenue would be generated by the licensure fee increases enacted by the Board in September 2015.

Rowe called the meeting to order at 8:30 a.m. on Friday, November 20, 2015. A quorum to conduct disciplinary matters was present.

LICENSURE VERIFICATIONS THROUGH NURSYS.COM

Cleghorn provided information regarding the SOS request that the Board delay implementation of Nursys.com for licensure verification purposes until the Board has the opportunity to confirm that the General Assembly will appropriate the funds back to SOS. Fort noted that five part time employees allocated to the Board of Nursing would cost approximately \$86,710. Board members discussed that the fee increases enacted in September 2015 would generate approximately \$77,620 in even numbered years and \$164,020 in odd numbered years. The additional revenue in odd numbered years is related to the LPN license renewals occurring in odd numbered years.

Cleghorn noted that Durden had requested the Board's rationale for its decision and clarified the rationale previously discussed by the Board.

Shilling noted the number of cases that the Board had reviewed at the meeting that involved some form of fraudulent activity.

Board members noted the technology issues that occur at SOS and noted that Nursys.com would provide increased customer service for licensees.

The Board unanimously agreed that implementation of Nursys.com for licensure verifications should begin immediately.

Rowe explained that a significant commitment would be required of all board members if the Board attempted to seek legislation to change its administrative structure.
